Concern: Letter of recommendation for Juho Turunen

TO WHO IT MAY CONCERN,

It is my pleasure to comment on Juho's internship at Quite Good.

Juho Turunen was an intern at our company from 25 April 2022 to 28 July 2022. His main duties consisted of creating some internal tooling, from the analysis of the requirements to the release in production.

During his entire internship, he demonstrated a strong motivation and was eager to learn new methodologies and technologies. I was especially impressed by his ability to learn by himself very complex concepts, with very little initial teaching. For instance, Juho learnt to program in Python on his own and was able to produce a modular, object-oriented and well-documented piece of software by the end of his 3 months internship.

Not only has he shown great technological affinities but he was able to fully integrate our team, consisting of senior engineers, much older than him.

If you have the honour of receiving Juho's application at your company, I highly recommend you to not let such an opportunity pass.

Sincerely,

Bastien Schils
CEO
